NOTICE. We absorb every effort possible to limit the distribution of trade prices to those we know are in the trade and entitled to receive them. Therefore when asking for trade prices, you are requested to use printed stationery, or enclose a business card. Prices named in this list are for nurserymen, florists and dealers only.

CLAIMS: All claims for stock received not as represented should be reported promptly. We cannot entertain claims made after stock has been accepted in good faith, or when a report is not made in some form within a period of 15 days after arrival of stock.

Our nurseries are free from injurious diseases and insects. A clean certificate of inspection accompanies each shipment.

Your order, if intrusted to our care, will at all times receive best possible attention.

LIABILITY: If any nursery stock sold by us proves to be untrue to variety name under which it is sold, we hold ourselves in readiness upon proper proof to replace such nursery stock that may prove untrue to name, or refund the original amount paid; and it is agreed and understood that we shall not in any case be liable for any sum greater than the amount originally received by us for said nursery stock.

CARLOADS: We have our own private railroad siding, and are equipped to load and forward carlot orders to all points.

The above illustration shows the quality of the Apple trees we grow.

Fruit Trees

Special care is given to the production of our fruit trees. They are grown under our personal supervision, with our Mr. Wm. E. Bunting personally in charge of the work from the time they are budded until dug for your orders. We are growing a general list of varieties, on selected soils, and have one of the best stocks in the East to take care of our trade.

Although every precaution is taken when the buds are cut from our own bearing orchards, we employ each year the services of Dr. J. K. Shaw, Research Professor of Pomology of the Massachusetts State College, together with his associates, to go over our stock with us to keep it free from mixtures. We especially cater to nurserymen and dealers who supply commercial orchardists with fruit trees. You are assured of receiving the variety ordered when placing your business with us.

GRAPE VINES

Grape Vines are another specialty with us, having approximately 50 acres under cultivation here in our own nurseries, which stock we supply in grades equal in quality to any grown anywhere in this country. They have heavy fibrous root systems and many lengthy canes at the top. Our stock is largely used by commercial growers, nurserymen and dealers who supply commercial growers, and must know the stock they supply is first-class and last but not least, absolutely true to name. If you haven't been placing with us your orders for Grape Vines, we solicit your business.

Partial view of one of our blocks of well grown Evergreens.

Evergreens

Evergreen prices named are for strictly first-class stock which has been transplanted one or more times, also sheared two or more times, and this stock should not be compared with many on the market which have not been properly grown. If there is anything which shows a difference in quality by lack of transplanting and shearing, it is Evergreens.
